12A091 VALVE ASSY. (DISTRIBUTOR VACUUM CONTROL) – Also refer to groups 8A564, 9D473, 9E897 & 12A208

To select the correct VACUUM CONTROL valve by knowing the identification number only:

- Check the VACUUM CONTROL valve, taken from the vehicle, for an identification part number.
- Refer to the Identification Chart below.
- Find the VACUUM CONTROL valve identification part number (sequenced numerically) and find the service part number in the adjacent column.

For example:

The service part number for VACUUM CONTROL valve identified D5TE-BA is D5TZ 12A091-A

For Model Application, refer to Calibration Parts Lists in Section 93A.

DISTRIBUTOR ASSEMBLY

HOW TO FIND DISTRIBUTORS and COMPONENTS

To find Distributor Parts:

- | | |
|--|---|
| <p>By IDENTIFICATION:</p> <p>(1) Refer to Identification Chart below.</p> <p>(2) Check marking (on distributor) against identification numbers to determine part numbers of service distributor, adapter, cap, diaphragm assembly and rotor.</p> <p>(3) If group number is not known refer to illustration page shown, or to the Alphabetical Index which follows the General Information Section of this catalog.</p> | <p>By MODEL APPLICATION:</p> <p>(1) For model application, refer to Calibration Parts Lists in Section 93A.</p> |
|--|---|

Serviceable distributor components which do not show in the chart below are cataloged in the normal group sequence in Section 120 providing they do not affect distributor calibration.

Those parts which do affect distributor calibration are available only to authorized rebuilders.

NOTE- Important- Canadian regulations require that vehicles and other devices (other than aircraft) equipped with internal combustion engines using spark ignition systems and manufactured in or imported into Canada on or after September 1, 1976 be operated in conformance with restrictions on radio frequency interference. Use of non-resistor or non-reductive type spark plugs may cause such vehicles or devices to be out of compliance with these regulations.

12A651 CONTROL ASSY. (ENGINE AIR FUEL RATIO)

To select the correct control assy. by knowing the identification number only

- Check the control assy. taken from the vehicle, for an identification part number
- Refer to the identification chart below
- Find the control assy. identification part number (sequenced numerically) and find the service part number in the adjacent column

For example:

The service part number for control assy. identified E2AF 12A651-A2A is E2AZ 12A651-A

IDENTIFICATION CHART
